DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on January 6, 2006. The rejections cited are as stated below:

Response to Applicant's amendment

2. Applicants' amendment filed on January 6, 2006 have been fully considered, and discussed in the next section below or within the following rejections are not deemed to be persuasive. Applicants' request for allowance is respectfully denied.

Examiner acknowledges Applicant's amendment to claims 17-21, and therefore withdraws the previous office action regarding the 35 USC § 101. However, the added limitation to claim 17 does not overcome the 35 USC § 112 rejection. Applicant's claimed limitations consist of modules (software according to the specification) that do not describe the structure of the device.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17-19 and 21 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, claim 17 recites in the preamble "a device for facilitating remote bidding", the body of the claim does not contain any limitations indicating the structure of the device. A system or an apparatus claim should always claim the structure or the hardware that performs the function. Applicant's claimed limitations consist of modules (software according to the specification) that do not describe the structure of the device. Appropriate correction is required.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. § 101 reads as follows:
"Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter or any new and useful improvement thereof, may obtain a patent therefore, subject to the conditions and requirements of this title".
6. Claims 17-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 17-22 are rejected under 35 U.S.C. § 101 because; the claimed invention is directed to a non-statutory subject matter. Specifically Claims 17-22 are rejected as computer programs per se, i.e., the descriptions or expressions of the modules. Such modules are not physical "things," nor are they statutory processes, as they are not "acts" being performed. The computer programs do not define any structural and functional interrelationships between the computer program and other claimed aspects of the invention which permit the computer program's functionality to be realized. In contrast, a claimed computer-readable medium encoded with a computer program (see claim 37) defines structural and functional interrelationships between the computer

Art Unit: 3624

program and the medium which permit the computer program's functionality to be realized, and is thus statutory. Appropriate correction is required.

Allowable Subject Matter

7. Claims 23-26 are allowed.
